

Benutze die vorgegebene Anordnung um jede Aufgabe zu lösen.

Antworten

1) $39 \cdot 30 =$

A blank coordinate grid with a horizontal dashed line. The grid is composed of a series of small squares. A horizontal dashed line runs across the middle of the grid, intersecting the vertical lines. The grid is otherwise empty, with no data points or labels.

2) $28 \cdot 20 =$

A blank coordinate grid with a horizontal dashed line across the middle. The grid is composed of a series of small squares. The horizontal dashed line is positioned exactly halfway down the grid, dividing it into two equal halves. The vertical lines are solid and spaced evenly apart. The horizontal lines are also solid, except for the middle one which is dashed.

6) $22 \cdot 20 =$

A blank coordinate grid with a dashed horizontal line at the bottom. The grid is defined by a solid horizontal line at the top and a solid vertical line on the left. A dashed horizontal line is positioned near the bottom of the grid. The area between the top solid line and the dashed line is empty, intended for a student to draw a graph.
